A request to the teacher
As an organization managing part of the City of Nagoya's international relations activities, the Nagoya International Center holds Japanese lessons for children whose mother tongue is not Japanese. The class aims to provide the Japanese language skills necessary for a smooth school and life. During the application process we will be evaluating each student's Japanese ability and subject knowledge. In order to do this we would like the opinion and advice of each student's current teacher. If possible, we would like the teacher to obtain permission from the student's guardian and to write an opinion and a view about the student's Japanese ability (listening, speaking, reading, and writing) and subject knowledge in the box below. Please note that submitted information will not be used for any other purpose.
