I Career Path after Junior High School Graduation

and Preparation for High School

1. Main career path after graduation from Junior high school

After graduating from junior high school, students work or go on to high school.

In most cases, they take an academic achievement test and take part in an admissions interview.

After graduating from high school, the number and types of jobs available increase.

If you have not graduated from junior high school, you cannot go on to high school.

If you are not enrolled in a junior high school, please refer to "II Career paths for students not enrolled in a junior high school" on page 10.
